

EXPERIMENT - 1

EXPERIMENT - 1.1

AIM: Create a custom EventEmitter that triggers "greet" or "exit"

CODE:

```
const EventEmitter = require('events');

const myEmitter = new EventEmitter();

myEmitter.on('greet', (name) => {

    console.log(`Hello, ${name}! Welcome to node.js.`);

});

myEmitter.on('exit', () => {

    console.log("application closed");

});

myEmitter.emit('greet', 'DM');

myEmitter.emit('exit');
```

OUTPUT:

```
Problems  Output  Debug Console  Terminal  Ports

● gouravkumarverma75gmail.com@Gauravs-MacBook-Air-2 javascript(college) % node EXP1.js
  Hello, Gaurav kumar! Welcome to node.js.
  application closed
○ gouravkumarverma75gmail.com@Gauravs-MacBook-Air-2 javascript(college) %
```
